## Plant Hire

### *Company Profile*

# About Us

What began in 2005 as a civil construction company working in remote areas, graduated to the establishment of Atlas Plant Hire. Our goal is to provide modern and quality plant to the industry for both long and short term hire.

Our head office is located in Alice Springs, and we have recently acquired a yard in Cloncurry to improve our services to this area. Our progression into the Cloncurry area will see us support the local community and economy through employment and sponsorship initiatives.

Atlas are pleased to advise that we are compliant with the *National Code of Practice for the Construction Industry* and the *Australian Government Implementation Guidelines*. We practice Equal Employment Opportunity and encourage a non smoking work environment.

Atlas runs courses and training to further the skills of our valued employees. We currently provide training in areas of

- HR
- Plant Operator Competencies
- Fatigue Management
- OHS

Atlas put quality and service at the forefront, and we will go to great lengths to exceed your expectations.

# *Plant & Equipment*

Atlas Plant Hire is always improving and upgrading their fleet of plant and equipment to ensure demands for quality, modern and safe plant can be guaranteed. We are consistently expanding our equipment assets to improve our diversity and provide a large selection for our clients.

Paramount to Atlas, is the upkeep and maintenance of our assets. For that reason we enforce the use of pre-start checklists and maintenance records for all our vehicles, trucks and machinery. This ensures they are kept in top condition for reliability and are safe to operate.

Atlas Plant Hire have the following items available for both wet and dry hire.

- 1.8T Excavator
- 5T Excavator
- 2 x 20T Excavator
- 25T Excavator
- 3 x CS563 Flat Drum/Pad Foot Rollers
- PS200 Multityre Roller
- PS300 Multityre Roller
- 966H Wheel Loader
- 938G Wheel Loader
- IT38G with forks, bucket & lifting jib
- 432E Backhoe
- TH337 Telehandler
- 226B Skid Steer
- 2 x 140H Grader
- 2 x Water Tanker Semi Trailers 25000 Ltr
- Rigid Water Tanker Truck 12500 Ltr
- Side Tippers on wet hire

Atlas is not limited to the above as we are continually expanding our fleet. Give us a call today to discuss your specific site requirements.

# *Past Projects*

Atlas is proud to have catered for the needs of clients across Australia through wet and dry hire of our fleet.

## **Burke Shire Council, QLD**

In 2011, Atlas (formally Urban & Rural Contracting) was able to help out the Burke Shire Council with the plant needs to undertake much needed roadworks before the wet season could settle in. On dry hire, Atlas provided a flat drum and pad foot roller, and on wet hire, we provided a double water tanker set up and a triple road train of side tippers. Atlas were self sufficient in providing

equitable living arrangements for employees and maintaining the plant and equipment. Within 4 days of notification from Burke Shire, Atlas had 3 roadtrains mobilised and on site.

## **Transpacific, NT**

Transpacific required an excavator with a reduced radius for their contract with the Alice Springs Town Council at the tip. Atlas sourced and provided a 320CU on a monthly long term dry hire arrangement.

## **BMD, NT**

Atlas provided wet hire of 5-25T excavators, backhoe, watercart, flat top truck, prime mover & float and flat drum roller for their underground powerline project in Alice Springs.

## **Short term hire, NT**

Atlas has provided numerous local and interstate businesses with plant for hire on a short term basis. This aids in voiding any down time associated with broken down machines and filling the gap when extra machinery is needed temporarily.

## **Mining & Exploration**

Atlas Plant Hire has been involved in supply of potable water carts for drill rig operators in the Mt Isa and Western regions of QLD. Atlas had to co-ordinate with Shire Councils for water availability, and ensure the availability was adequate to meet the demand.
