OCCUPATIONAL HEALTH & SAFETY POLICY

ECG-SP 101

At East Coast Generators Pty Ltd we have a total commitment to the safety and health of our employees, and people affected by our work activities.

There can be no compromise when it comes to safety.

It is and always will be the responsibility of each and every one of us to focus on safety.

We believe that all injuries and industry related diseases can be prevented.

**“OUR WORK IS NEVER SO URGENT OR IMPORTANT THAT
WE CANNOT TAKE THE TIME TO DO IT SAFELY”**

All staff, employees and subcontractors are required to work within the safety guidelines set out by ECG and to work towards achieving and maintaining a high level of safety performance.

OHS duties and activities may be delegated, but not the responsibilities.

Each and every person is required to follow all safety rules, procedures and instructions, to report all hazards, injuries or ill health, and to ensure safe and proper use of all plant and equipment.

“WE AIM FOR NO INJURIES TO ANYONE”

General Safety & Environment Rules

Ensure the health and safety of yourself and others.

If you see someone working unsafely, please ask them to reconsider.

Actively participate in meetings, risk assessments, inspections and other workplace safety and environmental activities.

Make unsafe work situations safe and free from hazards.

Follow safety and environmental signs, rules, practices and procedures.

Attend required safety and environmental training and follow the instructions provided.

You will report all Safety and Environment hazards, near misses, incidents, accidents, illnesses, injuries and issues.

Always use required personal protective clothing and safety equipment.

Only operate, adjust, alter or repair tools and equipment if you are authorised and competent to do so.

Keep your work area clean and tidy. Every workplace is judged on its appearance; poor housekeeping is the biggest contributor to slips, trips and falls and the number one cause of work injuries.
