COMPANY HISTORY

NTP commenced business in South Australia on the 1st of November 1983 as a sales, service and rental organisation. Today it trades as NTP Forklifts Australia and retains two of its original Directors, Nick Perdelis and John Naffine, who together have successfully grown the company to be one of the largest privately owned materials handling firms in Australia. Beginning with 10 people in 1983, today NTP employs over 250 people in a wide range of roles to support our customers and products that we provide around the nation. Our staff includes a strong senior executive board, an experienced middle management team in the operational side of the business and over 110 factory trained mechanics to ensure prompt and skilled attention to customer service requirements, 24 hours a day.

SERVICE

- Service & repairs to all forklift makes and models
- 24 hr emergency service
- Dedicated field service fleet
- Comprehensive workshop facilities
- Factory trained technicians

PARTS

- National parts supply and support for associated brands
- Parts available for all forklift makes & models
- Direct factory inventory and support
- Replacement forklift tyres (fitting and change over)

RENTAL & FLEET MANAGEMENT

- National representation
- Complete range of materials handling equipment
- 30 years fleet management experience
- Provide materials handling advice & solutions
- Long term, short term & casual rental

NTP PRODUCTS

Manitou are well established as the world leaders in rough terrain forklifts, telescopic handlers and personal lift platforms. The company, established in France in 1953, is very market focused and offers a product range of over 70 different models to meet the needs of a wide range of global industries. The possibilities are endless; Manitou has designed a model to suit almost any application imaginable.

TCM, now wholly owned and operated by global manufacturer UniCarriers Corporation, became the first Japanese manufacturer of forklifts in 1949. Since then it has been a specialist producer and supplier of forklifts that are globally renowned for their high level of reliability, engineering quality and performance. In Australia TCM was the first Japanese manufactured forklift to become available in 1963 and continues today with a complete range of industrial IC and battery electric forklifts.

Jungheinrich, a German company who began producing forklifts in 1953, is considered a world leader in the design and engineering of battery electric materials handling equipment. In fact presently they are measured as the largest manufacturer in the world of this major product group. Jungheinrich offers a complete battery electric warehousing equipment range including powered pallet trucks, pedestrian walkie stackers, reach trucks, high/low level order pickers and 3 & 4 wheel counterbalanced forklifts.

From the day Taylor Dunn shipped its first vehicle in 1949, they have pursued a singular goal: to build tough, rugged, dependable vehicles to help our customers move personnel, equipment, and materials. Taylor Dunn offers a complete range of personnel and burden carriers with a model perfect for a wide variety of applications.
