Panther Earthmoving established in 1989, based in the western suburbs of Melbourne.

We are a family owned and run business, operating all over Victoria, specializing in affordable and prompt, civil-works, earthmoving, & plant hire , from project start to finish.

Panthers mission is to a deliver affordability and trust to our customers, through great services, products, and a happy and pleasant team to assist them throughout their project. We aim to be the most efficient, reliable, supplier of services and products in our field. We are doing this by:

- **To perform for our customers the highest level of quality construction services at fair and market competitive prices.**
- Maintaining a high level of customer focus for all projects, with our clients best interests always in mind, and to conduct our work in a ethical and legal manner.
- **To be the most honest and ethical trade partner of choice**
- To deliver our projects in a safe and efficient manner, within accordance with OH&S and Environmental Regulations.
- **To ensure the longevity of our company through repeat and referral business achieved by customer satisfaction in all areas including timeliness, attention to detail and service-minded attitudes.**
- To use only up-to-date and best of its class machinery, to provide reliability and efficiency.
- **Panther and all its operators are fully insured and certified.**
- Panther endeavors to provide all employees with the resources, training and information required to achieve their full potential, to meet the vision of excellence in our field.

Panther intend to grow to the maximum extent consistent with long-term profitability.

Safe Work Method Statements/ JSA

Are provided for each project undertaken by Panther and will be Site Specific, which will include a set out task-by-task with all hazards identified and control measures put in place to make it a safe work place for workers, bystanders and the public.

Insurance

Panther and all its operators are fully insured and certified.
A copy of our insurance can be provided upon request.

Sustainability

Panther's aim of helping with the sustainability of Australia future is being done so in a few ways, one of which is waste management. Demolition materials being one of these, is to limit the amount of materials that go to Land Fill, most materials are separated and taken to our recycling facility where, concrete bricks and rubble are crushed and screened for the re-use as road base and sand mixes. Timber is separated and graded for re-use, and the remainder is ground to mulch for composting. Metal is separated and recycled, and the remaining waste is sent to a recognized EPA Land Fill site to be disposed of. Other ways Panther is helping with the sustainability of Australia, is by reducing our carbon foot print, by keeping our equipment up-to-date to have more fuel efficient machinery
