Aussie Excavators Plant Hire Company Profile

Aussie Excavators is located in Brisbane, Queensland, Australia. We specialise in general plant hire services and earthworks in the south east region. Our team comprises highly experienced operators, offering extensive industry knowledge, and late model machinery.

We offer a large range of services and equipment including, but not limited to:

- Excavators ranging from 1 Tonne to 35 Tonne Capacity;
- Skid Steer Loaders;
- Body Trucks;
- Water Trucks;
- Excavator and Bobcat Combinations ranging from 1 Tonne to 8 Tonne Capacity; and
- Many more.

We have an accredited safety management system and are committed to conducting our business in a manner that prevents injury or illness from anyone that may be affected by our work activities. Our operating and safety management system enables us to provide and implement policies and procedures to effectively manage the health and safety obligations of personnel involved by our work activities.

Our machine operators have received extensive training in our QHSE Management System and other specific competency requirements. These requirements include Heat Stress Training, Use of Fire Fighting Equipment, Senior First Aid, Environmental Spills Management, Operation of 4WD Vehicles on Field Locations and many more. They are very capable at performing all aspects of earthmoving services, with majority of the operators having more than one earthmoving competency (i.e. Operation of Skid Steer Loader and Operation of Excavator Tickets).

We pride ourselves in our ability to tackle any project from start to finish, whether it is a large project or site cleanup. Our 24hr service, extensive industry knowledge, wide variety of plant & equipment and suitably qualified and experienced operators enables us to remain a leading provider of earthmoving services in the region.

We strive to continually exceed our clients' expectations. We are fully equipped to support the growth of your business, both today and into the future, and appreciate the opportunity to build a working relationship with a company of your stature.

Please find enclosed below a detailed summary of our services and capabilities, including previous remediation projects and operational information. We thank you for your consideration and look forward to providing you with the level of service you expect.

Yours faithfully,

Tony Sullivan
Operations Manager

Aussie Excavators Plant Hire Company Profile

About Us

Aussie Excavators is a leading provider of earthmoving services well above industry standard. We have an extensive fleet of equipment, experienced machine operators, with a focus on providing services to exceed our customers' needs. We are committed to supporting our customers' business growth and remain a driving force in earthmoving and remediation services.

We are a family run and owned business and are committed to upholding Australian values in the way we run our company. Reliability, flexibility and consistency are our strong points. We are highly committed to reducing our impact on the environment and ensuring the safety of all involved in our work.

Our Company

Aussie Excavators Plant Hire was incorporated in 1985, starting from humble beginnings with four owner-operated Bobcats. Today, Aussie Excavators operates a long established business in Queensland and has grown to be a significant plant hire and transport agency.

Spanning over twenty-five years in the earthmoving industry, Aussie Excavators provides reliable, timely and efficient services to customers ranging from small residential situations to major construction projects.

Our unique flexibility, 24-hr service and QHSE Management System stands us apart from our competitors. We possess a proven track record in the industry and strong commitment to safety measures.

Our Plant & Equipment

Aussie Excavators Plant Hire has the ability to provide the following equipment to our customers:

- Excavators ranging from 1 Tonne to 35 Tonne capacity;
- Skid Steer Loaders – Bobcats and Positracks;
- Excavator Skid Steer Combinations ranging from 1 Tonne to 8 Tonne capacity;
- Drotts;
- Water Trucks;
- Body Trucks;

Aussie Excavators Plant Hire Company Profile

- Backhoes;
- Graders;
- Dozers;
- And many more.

All our equipment is late model, maintained daily by our qualified operators and serviced by our Diesel Mechanic in accordance with the manufacturers specifications.

Aussie Excavators Plant Hire Company Profile

Our services include:

- Bulk earthworks;
- Remediation of contaminated work sites;
- Plumbing, electrical and draining preparation;
- Land clearing;
- Trenching, drainage and footings;
- Detailed earthworks;
- Site / house pad cut and preparation; and
- Many more.

Our Team

Our personnel are highly qualified and trained at performing quality earthmoving services for a range of industry sectors. Safety being our key focus our primary goal is to work towards a target of zero L.T.I.s (lost time for injuries). We understand the need to engage our team as we strive to eliminate dangerous situations and injuries in the workplace.

Our Operations Staff are available and on call 24 hours a day. We can supply any type of machinery to suit our customers' specific needs, if we don't already have what you need we are confident that we can source it for you.
