

THE Mining Pty Ltd is an Australian owned and operated Civil Engineering and Mining Construction Company which has been in operation since 1995. We have built our reputation on the compliance of Quality, Safety and Environmental standards, alongside our reliable and flexible service. THE Mining specialises in remote area projects and are committed to the continual development of our employees.

Our modern fleet of machines includes five Caterpillar RM-500 Stabilisers (540 hp) and a Caterpillar RM-300 Stabiliser (350 hp). All our machinery is well maintained and each of our crews is supported by a fully equipped service vehicle.

Our Caterpillar RM-500 Stabilisers have a working width of 2.40m and are capable milling and recycling pavements up to a depth of 500mm. .

THE Mining has performed insitu stabilisation throughout the Northern Territory, Queensland, NSW and Western Australia catering to both large and small projects.

Our Stabilisers are provided with experienced operators that work with our clients to deliver the project on time and in a safe manner.

THE Stabilising have the ability to support your project regardless of the size, time frame, complexity or location throughout Australia.
