## OUR ORGANISATION

Dart Contracting is an organisation built on a foundation of hard work and dedication, founded in 1983 it offers a complete range of civil infrastructure services and land development throughout Queensland, New South Wales and the Western Australian regions.

With over 30 Years' experience in the industry, its solid reputation is backed by over 250 years combined expertise. Dart Contracting is the quiet achiever, having developed an extensive portfolio of civil engineering projects in the region, including many significant infrastructure projects.

Dart Contracting has a hands on company approach, providing on-site owner representation, a reliable source of plant and equipment and are renowned within the industry for being problem solvers, the go to company for other contractors.

*“Dart contracting are known for their brilliance, problem-solving and technical innovation in getting the job done”*

## COMMITTED TO SUPERIOR QUALITY & RESULTS

-  **Superior Quality**
-  **On Time and on Budget**
-  **Reputable Owner and Subcontractors**

Dart Contracting works closely with its clients to understand their unique requirements and to provide them the highest level of customer satisfaction by supplying professional project management teams to deliver quality outcomes.

At Dart Contracting, we believe quality assurance is a multi-faceted process that depends on best practice systems and people of the highest calibre.

Dart Contracting are committed to ensuring all activities are performed in a systematic and controlled manner. Regardless of whether it is a small project or a large one, in a remote area or in a central business district, each and every client will receive the same quality outcome.

To us, quality is more than just a set of documents. It is a holistic methodology that involves people, infrastructure and systems working in synchronisation to create a final product. We create tailored solutions through meticulous planning and a systematic approach to deliver products that surpass our clients' expectations.

## OUR VISION

It is Dart Contracting's Vision to be the preferred contractor for existing and new clients, providing consistent excellence in civil infrastructure services, earthworks and associated services, throughout Queensland, New South Wales and Western Australia.

We aim to achieve and sustain this Vision by aligning our workplace behaviour, attitude and approach with a set of positive core values. These values form the foundation of respect for both clients and fellow staff. With these values at the centre of our work, our team is able to reliably deliver quality projects within our clients' timeframes and budgets.

## OUR VALUES

1. **Professionalism** - We meet client timeframes due to our mastery of the skills and knowledge needed to complete the job, the application of quality principles, and being known and reputed as safe, productive and effective performers.
2. **Can-do Attitude** – The Dart Contracting team have a can-do attitude, find enjoyment and pride in the job and work environment, and share a passion for quality. Dart Contracting staff experience career satisfaction and are positive about the job, the company and the people.
3. **Hardwork** - We are flexible and able to meet any unexpected needs of our clients that may arise while working on a project. We have our own team of direct employees and equipment, meaning we are able to mobilise teams quickly to site and effect high productivity on the job.

**Safety** - Safety is Dart Contracting single biggest priority, with all efforts expended to achieve a 100% injury-free workplaces at all times. To Dart Contracting safety is also about more than zero harm, it is also about providing wellbeing programs that achieve better health outcomes for all our employees.

## ENVIRONMENTAL

Dart Contracting is committed to conducting its activities while sustaining and protecting the environment and heritage sites.

Because we deliver every facet of Bulk Earthworks construction, we are determined to conduct operations in a manner befitting a good corporate company. We commit to continuous and rigorous compliance with all environmental laws, and managing all phases of our business with the goal of minimising impact on the environment.

Dart Contracting defines and implements measures for environment protection appropriate to each specific project and set of business activities. We actively foster education and training of employees to provide them with continued awareness and knowledge of the environment. We have established comprehensive internal systems for regular monitoring and review of accountabilities, planned activities, timeframes and quality management practices.

Our environmental initiatives include:

- Minimising waste and pollution and taking steps to conserve resources through recycling;
- Monitoring and evaluation of the environmental performance of our subcontractors and suppliers;
- Providing appropriate training to those responsible for implementing environmental control measures;
- Involving and consulting with employees, government authorities, regulatory bodies and customs to identify improved environmental management and waste disposal solutions;
- Investigating any incidents of misuse and/or inappropriate disposal of waste; and
- Specific action plans during all phases of work, including earthworks; concrete works; storage of chemicals and fuels; disposal of site materials; and transportation.

Dart Contracting believes that our environmental performance demonstrates our values and contributes to the sustainability of our business and relationships with key stakeholders.

## EXPERIENCE

Dart Contracting undertakes projects utilising our long-term, straight-shooting, and experienced workforce with our diverse fleet of plant and equipment. This enables us to deploy resources effectively and efficiently whilst retaining flexibility to meet the fluctuating requirements for planned and unplanned works. All Dart Contracting projects are undertaken and completed at level 1 supervision.

Dart Contracting fosters an environment that supports the philosophy of continual improvement. Our design and construction teams are dedicated to producing the best solutions for our client's specific needs, with flexibility and a high level of professionalism embedded in all our people and processes.

The company is quick to adapt with the support of our well-trained employees, led by an innovative, determined and focused management team. With our people, culture, training and distinction in what we do, Dart Contracting delivers quality every time.

All Dart Contracting projects are undertaken and completed at level 1 supervision

## **SAFETY**

At Dart Contracting we believe all injuries are preventable, so we are absolutely committed to safety and a zero harm policy. Dart Contracting foster a safety conscious culture through a dedicated management system that embraces opportunities to improve our performance and exceed best practice.

Our commitment to Health and Safety is implemented through all levels within our company, Dart Contracting develops and tailors specific plans to ensure that not only legislative requirements are met, but those of the individual client and contract. This ensures a comprehensive understanding of the project requirements and enables our commitment to be achieved.

Our safety performance is then monitored by all levels of Management in conjunction with the Safety Officers and Safety Representatives. At Dart Contracting we train and assess our operators in all aspects of our work activities. Safety is the major driver of this training as we believe well trained personnel minimise health and safety risk and increases productivity.

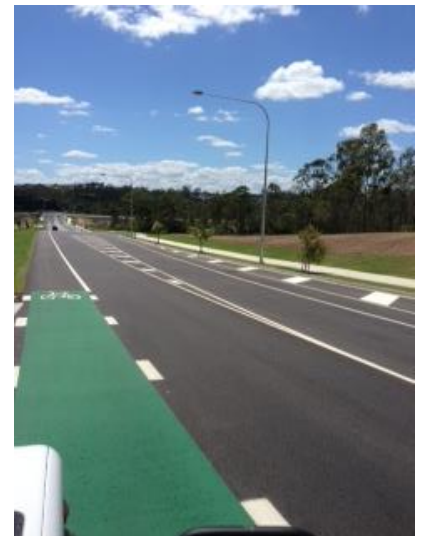

## **QUALITY MANAGEMENT**

Dart Contracting are committed to Quality Management and delivering Quality outcomes in all of our work.

Our dedication to Quality incorporates the following commitments to our clients;

- Productive and efficient operations that ensure all work is completed to client specifications,
- Completion of work by appropriately qualified and competent personnel under experienced supervision,
- Conformance to all applicable statutory, regulatory and industry requirements,
- Systematic review and assessment of quality performance incorporating client feedback and continual improvement.

Quality, hardwork and integrity form the core of our business philosophy, and we believe this culture is the foundation of our success.
