

Mule 600

Mule 4010 "2-person"

Mule 4010 "4-person"

To whom it may concern,

I would appreciate this opportunity to introduce our Hire Company. We specialize in the hire of Utility Vehicles to the mining and exploration industries. Our vehicles are "mine spec" and have proven themselves in the harsh terrain and environment of the mining and exploration industry.

Our customer base includes large corporations and companies such as Terex Seismic, Velseis Pty Ltd, Siemens Limited, Webster Drilling & Exploration, Aviation Development Australia.

Our utility vehicles are 4x4 with off road capabilities, with rear differential locks and meet all OH&S requirements. They are great robust vehicle for getting around sites.

Available in 2, 4, or 6 person carrying capacity, petrol and diesel models available with large cargo trays and great storage areas. We have specialized unit's set up for diesel fuel transfer, medical use, and much more, we can cater for all needs.

Hopefully our services may be of assistance to you in the near future, please feel free to pass this information onto anyone that may be interested.

Please feel free to contact us for a free quotation, and "Special Introductory Hire Rates"
