CTL Earthmoving is capable of completing any job, from backyard landscaping to large scale works. We are fully equipped to complete any project with a friendly smile and competitive prices.

CTL Earthmoving is a licensed and insured small business, owned and operated by Sam Latham. Sam has 10 years earthmoving experience, working in civil, quarry and mining industries and is valued as a hard working operator who exceeds expectations and consistently meets deadlines.

CTL has highly specialised earthmoving equipment. At 48 inches (1219 mm) wide, the Terex PT-30 compact track loader is sized to work in confined spaces yet productive enough for larger jobs as well.

- Compact and manoeuvrable, ideal for productive work even in tight situations where access is limited.
- Very low ground pressure (3 psi) allows work on soft or sensitive surfaces with minimal damage or impact.
- Auxiliary hydraulics and quick coupler attach easily to a wide range of performance matched attachments including; 4 in 1 Bucket, Spreader Bar, Trencher, 200 & 300mm Augers and quick hitch mounted Rippers. Other attachments are also available on request.

When it comes to earthmoving in confined spaces, you need specialist equipment and expertise to get the job done efficiently and safely. CTL Earthmoving has the knowledge, experience and resources required for your job.
