

Ramage Concreting is one of the leading concrete and preferred suppliers for both the Wide Bay and Capricornia (Mackay) Regions of Queensland. Our success is based on excellent communication between ourselves and the building contractor to ensure a quality finished product on or *before* expected completion dates required. Our offices are located in both Mackay and Hervey Bay.

Safety is of high importance to Ramage Concreting, and, as such we employ a qualified WHS Representative and First Aid Officer, to ensure safety concerns and legislative requirements are always both controlled and complied with. **Safety management system is strictly compliant with the AS4801*

Ramage Concreting is proud to say that we specialize in all facets of concrete and civil works from the smallest aspect of construction to any major project needed to be completed.

We can confidently promote that we attain the highest standard and quality of works which are always completed ahead of schedule.

Narrow isle DM1 class floors (super flat floors); precast and tilt up panel works; suspended formwork; all types of formwork; steel fixing; all forms of concrete kerbing; domestic, industrial and commercial works; decorative concrete; plant and truck hire. These are just some of the few areas that we have been specializing in throughout our company's existence.

We have just recently completed 21 successful DM1 narrow isle super flat floors for Liebherr which is a first in Australia, now we can confidently state that no other concretor in Australia has achieved results that match these standards

Some of our **major projects** completed and in progress include:

Present – within last 5 years:

- Woolworths Bakewell – Darwin (Hutchinson Builders)
- Netherlands Retirement Facility – Birkdale (Paynter & Dixon)
- Energex – Berrinbah (FK Gardner)
