COMPANY PROFILE

DMAC Roma Pty Ltd is an earthmoving and civil construction company based in Roma, Queensland. We began operations in 2010 and have expanded to facilitate the growth of our key clients businesses, specialising in commercial, industrial and rural projects.

Our approach is based on the principles of most small businesses: trust, transparency and hard work. We are a family operated company, who value our clients and pride ourselves on building and maintaining long term and lasting working relationships, with a focus on exceeding our clients' expectations.

OUR STANDARD

DMAC's collaborative approach with clients enables us to tailor our civil works to each unique operating environment.

We are committed to the highest standards of service, quality and value for all of our clients. Our strategy of providing an experienced team of people with innovative solutions, committed to success through performance, quality and safety has enabled us, to build relationships with our clients that have ensured our capabilities and growth.

DMAC continues to seek opportunities for growth and projects that challenge us.

OUR OPERATIONS

Our full range of services covers everything from equipment hire to assistance with projects such as:

- Sub Divisions
- Dam Construction
- Bulk Earthworks
- Site Preparation
- Rock Drains
- Imported Fill
- Hard Stand Pads
- Slashing
- Road Construction
- Road Maintenance
- Water Cartage
- Fencing
- Lease Building
- Site Rehabilitation
- Dust Suppression
- Sediment and Erosion Control
- Bulk Haulage
- Pier Holes
- Trenching
- Rubbish Removal

And much more...

For each project we can provide experienced operators and the necessary material supplies.

HEALTH SAFETY & ENVIRONMENT

In all cases, safety compliance and security comes first. All operators are fully trained, hold current tickets and licences and are covered by liability insurance. They are also backed by a complete safety management system.

We pride ourselves on our overall safe working record of both our own resources and subcontractors. We will continue to focus on all safety aspects of our projects and maintain our commitment to **ZERO HARM**.

Operating in an environmentally sensitive industry, we are acutely aware of our environmental responsibilities at each and every work site. DMAC has always conducted its business in a manner that seeks to minimise adverse effects on the environment while delivering cost effective civil construction solutions.

DMAC respects the importance of Indigenous Australian Culture and value its diversity. Working in remote areas of Queensland, means we often need to be culturally aware of any Cultural heritage sites that we may be working in close vicinity of. We communicate very closely with our clients as part of our project planning to ensure we are aware of any Indigenous Australian Culture sites in the area of proposed works.

ACHILLES PRE-QUALIFIED SUPPLIER

Achilles FPS Oil & Gas Asia Pacific audit is an industry-wide independent assessment of an organisation's Health, Safety, Environment and Quality management systems. The audit programmes align with a preceding pre-qualification questionnaire stage, providing enhanced on-site validation by Achilles qualified assessors.

DMAC Roma has completed the Achilles Audit process recently and is now a fully registered supplier on the Achilles FPS Online Portal. This pre-qualification assessment program from Achilles helps demonstrate to our customers our capability and capacity to deliver on projects.

Our commitment to the Achilles pre-qualification program is a reflection of our hard work and dedication to be a leader in the Civil Construction Industry.

OUR TEAM

Our skilled and experienced team are the drive behind our success. Our team pride themselves on providing our clients with a quality service and successfully completed projects.

We carefully match the skills and the experience of our employees with the business objectives and project outcomes required by our clients. This approach, together with our project management and sophisticated fleet ensures that our services meet the requirements of our clients first time, every time.

Our employees possess:

- Construction Industry White Cards
- Certificate 3 in Civil Construction and Plant Operations
- Certificate 3 in Road Maintenance and Construction
- Various other certificates, licences and inductions

A wide-angle photograph of a construction site under a dramatic, cloudy sky. In the foreground, a dirt road with tire tracks leads towards the background. On the left, a large front-end loader is parked. In the center, a skid steer loader is visible. To the right, a white truck is parked near a pile of dirt. In the background, there are several industrial buildings, utility poles, and more construction equipment. The overall scene is industrial and active.

OUR FLEET

DMAC owns and operates a large and diverse selection of up to date, well-maintained plant and equipment, which forms an important part of our tailored services to clients. Our fleet is regularly maintained to the highest standards to ensure reliable and safe operation, and to deliver successful outcomes for all projects. We are flexible enough to be able to work with you wherever you are in regional Queensland and whatever size excavation or construction project you are working on.

Our mobile fleet includes excavators, skid steers, front end loaders, graders, road profilers, water trucks, tipper trucks, flat top trailers, light vehicles and much more.

At DMAC Roma PTY LTD we are committed to continuing to build and invest in our equipment to ensure we can offer the most innovative and cost-effective solutions in the market.
