

HORIZON UNITED GROUP

CAPABILITY STATEMENT

CIVIL CONSTRUCTION • INDIGENOUS ENGAGEMENT • PROJECT MANAGEMENT

ABOUT US

Horizon United Group (Formerly known as Maliyan Horizon) is a leading civil, maintenance, construction, and mining services contractor, with an integrated experienced management team extending our capabilities across the resources, materials handling, renewables, water infrastructure and power generation sectors.

Horizon United Group is committed to deliver on two core business objectives – providing a high-quality service to our clients and creating employment opportunities for regional communities.

At Horizon United, we are excited about not only providing highly experienced construction services to Regional and remote areas but to materialise the values and social impacts our company strives to achieve.

Horizon United is committed to existing relationships, whilst developing new relationships with our clients, subcontractors, and employees. The highly experienced management team has a detailed knowledge of the local market and a well-established and trusted network of suppliers and subcontractors.

“Horizon United Group is providing local capability.”

CAPABILITIES

Horizon United are committed to delivering on our clients’ project objectives, while ensuring local communities’ benefit and contribute to the success of the project. This focus has seen us deliver safe, sustainable, and cost-effective outcomes for our clients and local people.

Together with our highly experienced management team, we bring proven capability in delivering large scale / turn-key construction projects across the resources, materials handling, renewables, water infrastructure and power generation sectors for Tier 1 and Tier 2 clients.

OUR EXPERTISE:

- Project and construction management
- Design coordination and procurement
- Construction engineering
- Health, safety and environment management, compliance to ISO45001 and ISO14001
- Quality compliance to ISO9001, completions and handover
- Community and stakeholder engagement
- State and local government liaison

OUR EXPERIENCE:

CIVIL WORKS:

- Road construction and maintenance
- Detailed and bulk earthworks
- Drainage & environmental compliance
- Large-scale pipelines (water / gas)
- Underground services (install / removal)
- Structural concrete in-situ Form-Reo-Pour

RAIL SERVICES:

- Off-track maintenance works

RENEWABLES:

- Solar installations (civil / piling / panels)
- Public road upgrades and enabling works
- Wind / Solar access and hardstand works

INDUSTRIAL / FACILITIES:

- Water / Pump Station facility works
- Heavy industry fixed plant upgrades and overhauls
- Operations & maintenance facility install
- Camp and accommodation install
- Mechanical and Electrical trade services

PAST PROJECTS

At a glance, major project involvement for Horizon United:

- Snowy Hydro 2.0 - 200 man Camp Development
- Snowy Hydro 2.0 - Road Maintenance & Expansion Projects
- Gocup Rd Upgrade – Doctors Hill to Halfway Hill
- Newell Highway Upgrade -3yr project
- M1 Upgrade – Kariong to Somersby
- Inland Rail – Illabo to Stockinbingal Early Exploratory Works
- Inland Rail – Parkes to Narromine Civil & Drainage Works
- Bango Wind Farm Civil Works
- NSW State Bush Fire Recovery
- Sebastopol Solar Farm
- Australian Meat Group - Abattoir expansion projects
- Rye Park Wind Farm- Major project scopes
- Rye Park- installation of Bridge embankments
- Heavy Patching works for Regional Local Shire Councils
- Rural Roads to Recovery scopes
- Aust. Meat Group -Abitor major expansion works
- NSW Flood recovery road works
- NSW Food Repair for Rail

Through its partners, Horizon United has access to a highly skilled workforce operating a large modern fleet of machinery and vehicles, whilst Horizon United brings on-the-ground knowledge and community links. This combination of skills and networks provides clients with an efficient contracting service and effective local Indigenous engagement.

With our proven track records and success stories in both medium to large scale construction projects which encompass our ideals in community engagement, we have earned the complete trust and endorsement of the local 'Riverina – Murray and Western NSW' Indigenous communities. Representatives on behalf of the 'Ngumbaay Indigenous Corporation' have entered into a formal Agreement showing complete faith and commitment to work with us; to share in our success and our vision locally.

OUR PEOPLE

Horizon United Group has a management team who have worked extensively throughout Australia, with particular experience in the WA Pilbara and NSW Riverina regions.

Horizon United's combined knowledge in these areas provides a distinct advantage in ensuring that our work is conducted in a respectful, culturally appropriate manner and focused on encouraging and equipping people rather than discrediting and disengaging.

Horizon United uses a training and development mentoring program to support our employees and to meet the needs of our clients. We seek to continually build on the skills of our employees, resulting in a workforce that is constantly progressing, developing and expanding. Horizon United is an equal opportunity employer that actively encourages positive recruitment initiatives to improve Indigenous participation at all levels.

OUR SYSTEMS

Horizon United Group systems are certified to ISO standards of Safety, Environment and Quality. Working to these international standards ensures all activities are performed in a systematic and controlled manner. We take care to ensure work is performed by appropriately qualified staff and contractors.

Every project has pre-determined key performance indicators to ensure the work we deliver is aligned with client requirements and assessed at regular intervals throughout the project. By implementing this system at every project site, we can ensure our principles of excellence is always upheld.

MEET OUR MANAGEMENT TEAM

EMMA MULLER – MANAGING DIRECTOR

Founder and Managing Director, Emma has vast experience in major civil project management in mining, haul road construction, tailings dam construction, virgin land disturbance. Emma is highly skilled in negotiating, planning, co-ordinating, supervising and implementing key infrastructure activities, both cooperatively and effectively, Implement and maintain a range of industry leading safety and environmental practices expected from tier 1 civil construction clients. Emma is also a member of the National Association of Women in Construction, and crowned

2021 NAWIC NSW Regional Business Woman of the Year
2022 NSW Riverina Murray Outstanding Business Leader
2022 National Women In Construction Awards finalist;
Social Leader of the Year & Construction Woman of the Year.

SARAH STALHURST - COMMERCIAL MANAGER

Over the past 11 years, Sarah has overseen multiplex commercial mining and construction contracts across multiple fronts. She is commercial and business astute, ensuring best for business and best for client practices and outcomes remain in focus and delivered. Sarah has been a key driver for growth and diversifying the business structure, and operates across a National footprint.

LUKE PENRITH – INDIGENOUS ENGAGEMENT CONSULTANT

Luke is a proud Aboriginal man of the Wiradjuri people. With cultural and family ties to the Yuin People of NSW South Coast (Bermagui to Kiah), the Wotjoboluk People in Western Victoria (Dimboola/Horsham) and Gumbaynggirr Nation on the NSW mid- north coast (Nambucca Heads). He has spent 18 years working within Aboriginal Affairs from local grassroots experience with the Aboriginal Legal Service to State and National programs. Luke spent 6 years working in elite sports administration for the AFL, managing the Indigenous Academies and 11 years in the employment and training Industry supporting, mentoring & nurturing Aboriginal jobseekers.

DAYNE STONEMAN – GENERAL MANAGER

Dayne is a highly experienced Construction Manager with over 15 years of experience within the construction, resource, oil & gas, water infrastructure, renewables and infrastructure sectors including main roads construction. Dayne is a motivated leader and works closely with his teams to ensure the compliance to scope of work is maintained, whilst ensuring the daily and weekly planning of the works remain on schedule. He is extremely budget conscious and understands the importance of costs and the benefits of having a focused workforce to ensure productivity. Dayne places a high focus on a strong safety culture and leads by example. Dayne has a natural ability to communicate with the client's representatives and places a high importance on building relationships and communicating clearly with all stakeholders

DALLAS EDWARDS- PROJECT PANNING & EXECUTION

Dallas' leadership of design & construction projects has been founded on 17 years of experience across multiple industrial sectors including coal mine machines / assets / exportation, marine construction, APLNG and renewable energy infrastructure sectors.

Dallas' technical skills are built on his engineering background and has acquired his multi-disciplined hands-on experience across the various phases of project delivery, including project inception / feasibility, detail modeling / design, procurement, civil / SMP / electrical execution and commissioning.

With a proactive, diligent and structured leadership style, Dallas brings together project teams suited to each unique challenge with a core Health, Safety and Environmental focus on delivering quality outcomes within key constraints / conditions, stakeholder timeframes and budgets in excess of \$200m.

MACHLAN SCOTT - PROJECT ENGINEER

Machlan is known for his motivated, energetic and professional Project Engineering style and has acquired his civil and mechanical experience through key contributions to the delivery of projects within the QCLNG, Water / Utilities and Infrastructure sectors.

With a reputation for his calm and adept approach in high pressure situations, Machlan leads and mentors site engineering teams with exceptional communication, teamwork and engineering problem solving skills. A key strength is his ability to build and retain positive relationships with internal teams and external stakeholders throughout the typical project execution phase dynamics.

Typically reporting to the project Manager, Machlan provides proficient project coordination and controls support including preconstruction planning, constructability reviews, subcontract engagement, procurement scheduling development, progress tracking, quality records compilation, cost / claims tracking, client reporting.
