ABOUT US

Since 1996 EQUIPMENT AND LIFTING SOLUTIONS previously JMW Cranes and Rigging has been providing construction partners all over the South East Queensland with solutions to their crane hire, transport, access and complex heavy lifting challenges.

EQUIPMENT AND LIFTING SOLUTIONS sees itself as a partner to its clients and you'll notice that in their personal approach as a service provider. With over 20 years' service to varying industries and with a management team having combined industry experiences of over 100 years across various industries including but not limited to Construction, Mining, Oil & Gas, Rail Infrastructure and heavy Industrial; there is not much Equipment and Lifting Solutions hasn't been engaged with. ELS brings a strong focus on safety and expertise in solving customer challenges whether it is awkward jobs or unusual spaces –

Equipment and Lifting Solutions consults with its clients and thinks outside the box to provide solutions in achieving their project outcomes.

We're focused!

Equipment and Lifting Solutions operations are here to give an outstanding service to our clients, so we're focused on making sure you get the correct equipment for the job in doing that, we offer a one stop shop approach; so that we are able to provide for you the best Crane, Transport, Access and People solution in meeting your project objectives. Equipment and Lifting Solutions has built relationships with other service provider company's which ensures we can scale up as required through a reliable and vetted sub-contractors. We want to tailor the solution to overcome any height, reach, site access or working surface limitation on your project delivers a safe and efficient team.

Onsite Inspections

Equipment and Lifting Solutions take the time to inspect the job at no extra

cost to you, so that you get the right equipment at the right price and time frame of the client's project. We do that because we want you to keep coming back.

Instant Response

We offer a **genuine** 24/7 emergency response with staff available around the clock to respond at short notice. We take your call and we're actioned with a crane, transport and operators in real time; because we're local.

Safety/Training

Equipment and Lifting Solutions do more than lift heavy things, we're focused on lifting the safety standards as well. Whether its safety of our people and sites, safety of our equipment and machinery, or safety thought processes; We also pride ourselves in a comprehensive training affiliation and continuous improvement program with our RTO of choice; where all our employees are engaged in refresher training and upskilling programs to ensure we maintain a currency in all our respective competencies and provide for a skill set that delivers a safe and efficient team.

Performance

Highly demanding and complex lift requirements are no problem for the Equipment and Lifting Solutions team in the performance of the activities; we can provide comprehensive lifting, access and transport solutions in meeting your projects requirements. ELS Service includes 'as new' cranes that have undergone a rigorous maintenance program and experienced certified crane operators, as well as lifting equipment, insurance and on-site management. All equipment and operators are committed to ensuring a safe and quality outcome in meeting client needs and project outcomes.
